

INSPIRE STORY

PRIMARY LEADERSHIP

This academic year sees Sandfield Close Primary school taking the next step in their leadership journey. A group of their Year 6 girls have trained with us in order to deliver the Disney Shooting Stars Programme. Instead of one of our Inspire Together coaches delivering a block of sessions we trained their Year 6's so they were able to deliver the programme to the younger ones! The training has also provided them with the opportunity to get involved in some of our bigger event.

After they had practised the leaders had their first session with the Year 2s. They gave clear instructions and made the session safe and fun for the younger ones to enjoy. After the session they reflected on what they could do better next week.

Once they had delivered the Disney Shooting Stars programme on Year 2s at their school we felt they were ready to lead at our 'Girls Biggest Football event Ever'. We had 120 Year 4 girls attend and these Year 6 leaders helped to successfully run the event! They were in pairs on stations and each confidently gave the younger ones instructions and ensured they had a good time. This was such a big event for the girls to lead on and they were so proud of themselves at the end of the day.

The girls have already started saying things like, "being a sports leader has really helped my confidence", "I love passing on my love of sport to the younger ones!"
