

INSPIRE STORY WELCOME BACK TO SCHOOL GAMES

EVENT STRAND - **INSPIRE**

The Aim

Inspire events like these encourage children with less confidence, special educational needs or a disengagement with sport to take part in a variety of physical activity and then hopefully want to carry on one of the sports they have tried in the future.

Before the session

Pupils at inspire events often arrive feeling nervous and apprehensive because they haven't been to events like this in a while due to COVID and they aren't children who are used to attending sports events. .

After the session

The teachers who brought their pupils were particularly impressed with how these children who normally aren't as engaged with sport as their other pupils, thoroughly enjoyed getting involved. One teacher exclaimed "thank you for allowing our school to take part in this Multi-skill event. The children have thoroughly enjoyed themselves and as a teacher, I can see how our children have grown in confidence as the afternoon has gone on".
