

INSPIRE STORY LEADERSHIP

Through our Leadership strand some secondary school students get the opportunity to help at our events. Crown Hills Community College leaders, who ranged from Year 8 to Year 10, lead several groups of primary school children at our 'Welcome Back to School Games' Event. At this event the leaders ran a variety of different activity rotations. We were particularly impressed with a Year 8 student who is fairly new to leadership who was fantastic with the young people and had them listening to her every word.

This is an Inspire event, and as a result it is often less confident children who are in attendance. Therefore, it requires leaders to be excellent role models and to inspire a love of sport in the next generation. We were extremely proud of the Crown Hills leaders who were enthusiastic, encouraging and received lots of compliments from the primary school staff in attendance.

They were confident, explained the activity clearly to the young children and most importantly made sure they were having fun. They had lots of rotations throughout the day and engaged with 13 different primary schools. Having said this, they kept their energy up all day and ensured the pupils at the end of the day had the same experience as the ones at the start of the day. We know we can rely on these leaders at future events.
